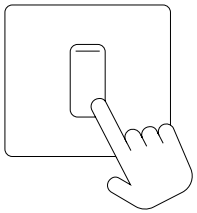
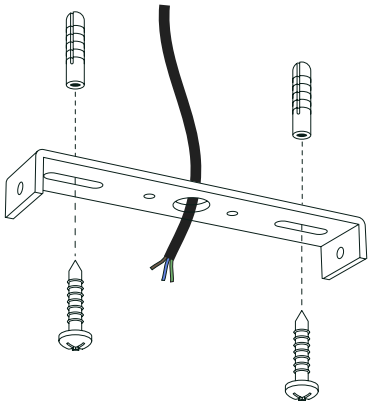
Thank you for your purchase!
Please read this manual carefully to ensure a safe and correct install of your light.

- The manufacturer is not responsible for damage caused by incorrect installation.
- Always turn the power off before installation, carry out maintainance or repairs.
- If in doubt, contant a qualified electrician.
- Keep light away from liquid or flammable objects.
- When installing, make sure cables are not crushed, damaged or corroded.
- If a cable is damaged, it must be replaced by a trained professional.

You Will Need
(not included)

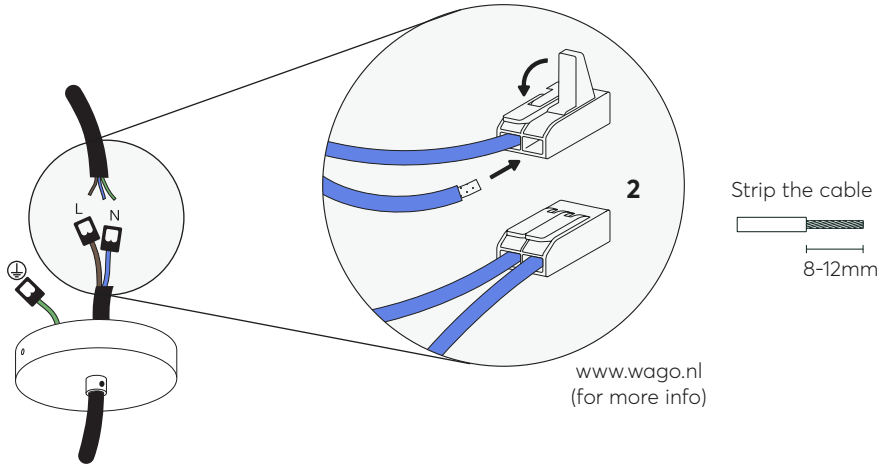
2 x  2 x 



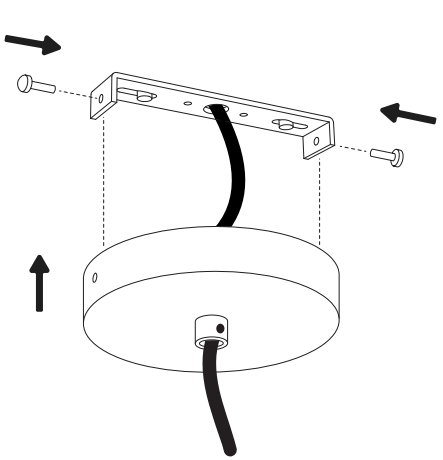


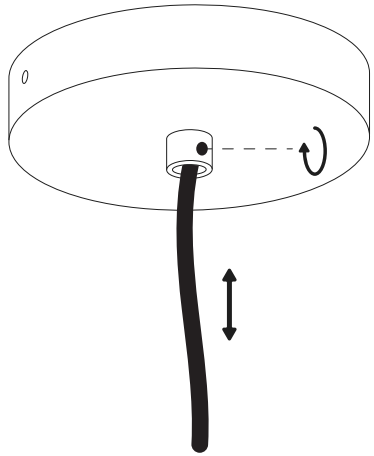
1 Before starting, please read the guidance above.

2 Drill holes and insert wall plugs. Line up the bracket, thread cable through and screw in place.



3 Strip 8-12mm of the cable, exposing the wires.
Insert the electrical cable into the wago connector and flip closed.





4 Connect the ceiling canopy to the bracket.

5 Use the side-screw to fine adjust the length of the cable.
Your light is now ready to use!
